  - — SYNC® 4 AppLink®
  - — Wireless Apple CarPlay® and Android Auto™ Compatibility
  - — Digital Owner’s Manual
  - — 911 Assist®[2]
  - — Smart-Charging USB Ports – two (2)
- TORSEN® Differential with 3.73 axle ratio in rear
- Track Apps™

[1] Driver-assist features are supplemental and do not replace the driver’s attention, judgment, and need to control the vehicle. It does not replace safe driving. See Owner’s Manual for details and limitations.

[2] The vehicle's electrical system (including the battery), the wireless service provider's signal and a connected mobile phone must all be available and operating for 911 Assist® to function properly. These systems may become damaged in a crash. The paired mobile phone must be connected to your SYNC® [Ford/Lincoln Digital Experience] system, and the 911 Assist feature enabled, in order for 911 to be dialed. When the feature is ON, 911 Assist uses your paired and connected mobile phone to assist occupants to contact emergency services by dialing 911 if your airbag deploys or, on certain vehicles, if the emergency fuel pump shut-off is activated.

Aftermarket on-board diagnostic devices may interfere with various vehicle systems including Vehicle Health Report and 911 Assist. To avoid interference, remove the device or contact the device maker for more information on compatibility.
